

TEA TREE SOAP

- Contains Tea Tree Oil to protect & condition the skin
- Antiseptic & Anti-Viral agents that fight bacteria & acne
- Renews skin softness and suppleness

BENEFITS OF TEA TREE

Tea Tree Oil, found in Ultra Glow® Tea Tree Soap is an effective treatment for skin conditions and disorders. Tea Tree Oil has antiseptic and antifungal agents to **disinfect and protect** the skin. It blends easily with the skin's natural oils and helps to alleviate acne, dry skin and itching.

PRECAUTION: It is recommended to test a small area of the inner arm before using a product that contains tea tree oil. Tea Tree products can irritate sensitive skin and may cause an allergic reaction in some people. Do not apply tea tree oil products around the area of the eyes.

SKIN CARE MADE EASY

CLEANSE YOUR SKIN

Cleansing the skin is the most important step in skin care. Regular cleansing of the skin helps to accelerate the skin's cellular reproduction process by gently removing old cells and excess oil. Ultra Glow® Soaps cleanse the skin without stripping away its natural oils and work to replenish skin cells for softer, smoother skin.

DRINK LOTS OF WATER

Water hydrates the skin as well as flushes toxins out of the body. It is recommended to drink 6-8 glasses of water daily to ensure complete hydration.

BALANCED DIET & EXERCISE

One of the keys to good skin care is a balanced diet. Your skin reflects the general health of your body and nutrient deficiency will affect your complexion.

Regular exercise helps to boost blood circulation and oxygen. Exercise improves your complexion and skin elasticity to encourage new cell growth.

ADEQUATE SLEEP

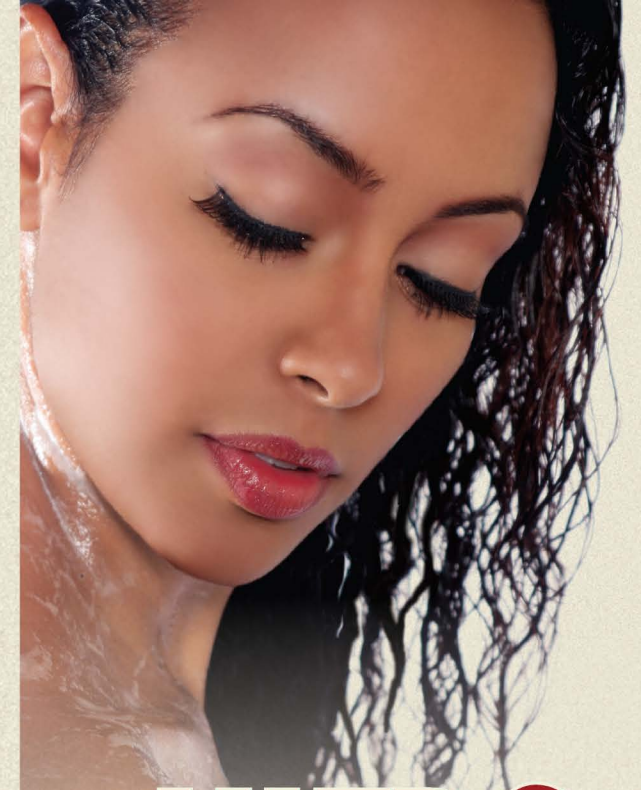

Follow a defined sleep schedule. When your body rests it repairs the damage done during the day by producing new cells or healing the damaged ones.

LIMIT SUN EXPOSURE

Everyone is susceptible to the harmful effects of the sun, including people of color. It is recommended to limit sun exposure and to always use a sunscreen when exposed to the sun for long periods of time.
